

# MANAGED CLOUD

EDA Solutions provides support and IT infrastructure services to solve your problems faster, more cost effectively and securely.

Using these services, our customers engineers can stay focussed on designing innovating IC devices and help keeping their company ahead of the competition.

As a specialist EDA provider with a successful history since 2020 we make sure our service solutions fit the needs of those companies starting up, established successes and all those in between.

## When to outsource management of your EDA environment

At EDA Solutions, we envision a seamless workday for your engineering team. Picture this: every morning, they arrive at their desks and their EDA & compute environment is ready for action. No delays, no hassles—just productivity.

## Why choose Managed Cloud?

**Effortless access:** Imagine your engineers logging in to a production-ready EDA environment. Our Managed Cloud solution ensures that software tools, Process Design Kits (PDKs) and client/server infrastructure are at their fingertips.

**State-of-the-art infrastructure:** With secure, state-of-the-art compute hardware and scalable storage, your team can focus on innovation without worrying about technical limitations.

**No hiring headaches:** Forget the complexities of hiring and managing in-house EDA and IT support. We've got you covered.

**Simple cost structure:** Our approach streamlines cost budgeting for your EDA infrastructure. No surprises—just transparent billing.

## What is Managed Cloud?

**Managed Cloud** extends our **Managed EDA** service by integrating Amazon Web Services (AWS). Here's what you get:

**Expert AWS configurations:** Our support engineers are AWS-trained and ready to tailor configurations for your secure cloud compute and storage infrastructure.

**Fixed-cost management:** Enjoy peace of mind with our fixed-cost management service, available with annual or monthly billing.

**Flexible Scaling:** AWS costs adjust based on your requirements, all within pre-defined limits and approval settings.

## Realise total focus

Let's turn imagination into reality. Let Managed Cloud empower your design team to focus entirely on what matters: innovation.
